## FAVORS A THIRD TERM.

Congressman Grosvenor Believes McKinley Should Be Elected Again.

### THINKS IT TIME TO BREAK THE RULE

The Dean of Ohio Congressmen Says Washington Did Not Seek a Third Term Because He Feared Defeat.

Cincinnati, June 10. — "There has been no time in our history when conditions would so justify the election of a president to a third term as in the case of McKinley," remarked Congressman Charles H. Grosvenor to a group of friends with whom he was chatting familiarly.

"McKinley is personally the most popular president we have had in a long time," continued Mr. Grosvenor, "and he has certainly most creditably performed the duties of his high office. I think it is time, furthermore, to demolish the fiction that there is an unwritten law, established by Washington, that no president may accept a third term. The facts are, as any student of the times may discover, that it was fear of defeat which impelled Washington to decline a third nomination. Being a Federalist, he was the object of very violent attacks on the part of the Democrats of his day, and recognizing the growing strength of his opponents he doubted, as I believe, his ability to again secure an election if he should run."

### BY HIS OWN HAND.

Tragic Death of Surgeon Who Exposed Embalmed Beef.

Pittsburg, June 10.—Major W. H. Daly, surgeon general on the staff of Lieutenant General Miles in Porto Rico, committed suicide at his home here by shooting himself in the right temple.

No cause is known for Daly's deed unless it be that insomnia drove him to temporary insanity. For some time he had been unable to sleep regularly and it is thought that after a sleepless night he concluded to end all. He was 59, a widower, leaves no immediate family, and for many years was prominent in medical circles. He gained international prominence during the Cuban war, as it was his report to the commanding general of the army that started the embalmed beef investigation.

### Mission of Cardinal Gibbons.

Rome, June 10.—It is asserted in reliable quarters that Cardinal Gibbons, in the course of his frequent conferences with Cardinal Rampolla, papal secretary of state, Mgr. Nozale, archbishop of Manila and other high ecclesiastics in regard to effecting a settlement of the question of the properties of the religious orders in the Philippines, is negotiating for an extension to Cuba and the Philippines of the jurisdiction of the apostolic delegation at Washington.

### Bought a Mexican Railroad.

City of Mexico, June 10.—The Stillwell group of American capitalists has purchased the Pachuca, Zacualtapan and Tampico railway from Richard Honey Thrice. The amount paid was \$1,000,000 gold and 35 per cent of the common stock in a company to be organized. The road will be extended from Sandoval, its junction with the Vera Cruz railroad, to Tampico, making a short line of only 12 hours between here and northern gulf ports.

### Cigarette Law Constitutional.

Marshalltown, Ia., June 10.—Judge Burnham, of the district court decided that the Iowa cigarette tax law is constitutional, and that the property of dealers in cigarettes and owners of buildings where they are sold may be attached and sold for said tax. Similar suits pending in other counties have been awaiting the decision in Marshall county. The American Tobacco company, it is said, will appeal.

### Significant Warning.

Parkersburg, W. Va., June 10.—A. B. Woodyard was arrested on a charge of brutally beating his sister, Mrs. O'Neill. He had left home, before he was arrested, because neighbors had warned him, and a bundle of hickory withes was left at his door as an indication of what he might expect if he remained.

### Slight Improvement.

Washington, June 10.—The slight improvement in Mrs. McKinley's health which manifested itself the latter part of last week continues, and hope begins to be felt that she may recover from the attack. The improvement, however, is so slight as not to change materially the extreme gravity of the case.

San Francisco, June 10.—The transport Hancock arrived from Manila with 31 officers and 1,042 enlisted men of the Thirty-first infantry.

## JAPAN ON GUARD.

Can Quickly Retire When Satisfied Other Powers Leave For Good.

Peking, June 10.—The Chinese express great satisfaction at the announcement of the intention of the court to return to Peking in September. All the foreign troops, with the exception of the legation guards, are expected to withdraw ere the middle of that month. The only troops not already under orders of withdrawal are the Japanese, whose government is sending reliefs. It is reported, however, at the Japanese legation, that when Japan is absolutely certain the other powers are evacuating, her own troops can be withdrawn on two days' notice.

General Voyron, the French commander, has instructions to leave one brigade for service in China, and the French transports are en route. The British will have completed their departure by the end of September, 10 transports making two journeys to India.

### International C. E. Convention.

Cincinnati, June 10.—The most elaborate arrangements have been made for the twentieth international convention of the Christian Endeavorers here July 6 to 10. As many were unable to attend the convention in London last year a larger attendance than usual is expected, especially since these conventions hereafter will be held only once in two years. The choir of 1,500 trained voices will be a feature at Music hall. Other large choruses have been trained for the exposition and other halls, while all the churches and their choirs have been engaged for the occasion. Bands will discourse sacred music in Washington park, adjoining Music hall, for the open air meetings. Governor Nash, Mayor Fleischmann and local committeemen will deliver welcoming addresses July 6. Dr. Clark will deliver his annual address and Secretary Baer will make his annual report Saturday evening.

### German Consul's Discovery.

Berlin, June 10.—Among the reports recently published here of German consuls in American cities is one from the consul in Cincinnati, who, treating of the prospects of the German immigrant in the United States, says: "The time is past when immigrants to the United States have a chance to acquire riches in this country, owing to the density of population and the overcrowded condition of all trades and occupations."

### General Miles Not Surprised.

Washington, June 10.—General Miles said he was not surprised at the suicide of Dr. Daly in view of the great personal bereavement Dr. Daly suffered recently and the undermining of his health by a severe attack of la grippe last winter. General Miles esteemed Dr. Daly very highly and they were intimate friends. His death came as a severe blow to the general.

### Captain Kountz Mustered Out.

Toledo, June 10.—Captain Fred J. Kountz, son of General J. S. Kountz, former commander-in-chief of the Grand Army, died very suddenly of acute pneumonia. He was a captain of volunteers in the Spanish war and served on the staff of General Frederick D. Grant. At the time of his demise he was awaiting an appointment to the regular army.

### Died at His Wife's Deathbed.

Kokomo, Ind., June 10.—E. Cage, a well known broker, was called to the bedside of his wife, who was thought to be dying of consumption. On reaching the bed Mr. Cage dropped to the floor a corpse, death coming suddenly from paralysis of the brain. Mrs. Cage, who had called her husband to see her die, was herself a witness of his demise.

### Court to Handle the Funds.

Cincinnati, June 10.—Judge Rufus Smith refused to allow the state treasurer alone to disburse the funds of the United States Debenture company. The court held that all funds shall be handled under its direction. This is in conflict with the state officials, who claim the right to handle funds deposited with the state without reference to the court.

### Clemency For Bob Ford's Slayer.

Denver, June 10.—State board of pardons commuted to 18 years the life sentence of E. O'Kelly, the man who killed Bob Ford, the slayer of Jesse James. The killing occurred at Creede, Col., and O'Kelly was sentenced July 12, 1892, so that with allowance for good behavior he has but about four years to serve.

### Divorce Decree Rescinded.

London, June 10.—Sir Francis Jeune, president of the probate divorce and admiralty division of the high court of justice has rescinded the decree of divorce granted to the Marchioness Angles Nov. 7 last. The arguments on the part of the application for the rescinding of the decree were heard in Camera.

## DASH INTO DYNAMITE.

Rear-End Collision Was Followed by a Terrific Explosion.

### LIVES OF FIVE MEN SNUFFED OUT.

Two Locomotives Were Reduced to Scrapiron—Flames Add Horror to the Disaster—Windows Shattered in Nearby Towns.

Binghamton, N. Y., June 10.—Five men were killed and seven injured in the wreck at Vestal. The dead: John P. Kelly, head brakeman of wildcat train; S. R. Polhamus, conductor of train No. 61; Elmer Polhamus, trainman of train No. 61; John Coulter, fireman first engine of the wildcat freight; Fred Witherby, fireman second engine of the wildcat freight. Seven others, all but two of them trainmen, were injured.

The wreck was the result of a Delaware, Lackawanna and Western wildcat freight train crashing into the rear of the regular freight train, No. 61, the regular train having a carload of dynamite next to the caboose. The dynamite was exploded by the jar.

Both trains were completely wrecked and the engines of the wildcat freight train were reduced to scrap iron, pieces of which were picked up at a distance of half a mile. The explosion was followed by fire, which destroyed a number of cars.

Nearly every house in the village of Vestal and Union lost more or less windowglass, while farmhouses and barns near the scene were badly shattered. None of the inmates, however, were injured.

### The Wedge Sticks.

Kansas City, June 10.—Judge Gibson in the circuit refused to dismiss Utey Wedge, receiver of the Siegel-Sanders Live Stock Commission company, whose removal was requested by minor stockholders in the company. Wedge was appointed a month ago on the application of Frank Rockefeller of Cleveland, principal stockholder in the company, and some of the other stockholders alleged that the receiver is influenced by Rockefeller in adjusting the firm's affairs. Since the failure President Siegel has been arrested, charged with misapplication of over \$100,000. Rockefeller had helped reorganize the firm and on the stand testified to having signed for Siegel's use in straightening out affairs guarantees in blank that afterwards turned up for \$750,000.

### Students Issue a Manifesto.

Salina, Kan., June 10.—A committee representing the students of the Kansas Wesleyan university, who are a unit in defense of Dr. Frank D. Tubbs, professor of natural science, dismissed last week because of alleged heresy, has issued a manifesto denouncing the board of trustees for "duplicitous and unfairness." The board has agreed to allow Dr. Tubbs a hearing, but still positively refuses to reinstate him. The incoming junior and senior classes still seem determined to carry out their threat to leave the university if the trustees do not accede to the demands.

### Smell Oil in Kentucky.

Danville, Ky., June 10.—In Junction City there is no small degree of excitement on account of oil indications. A company is in process of organization. An attorney has been leasing land for the company, which, it is reported, has sent instructions to secure 3,000 acres on which to begin work. One man dug a well in which the water was ruined by the flow of oil at a depth of 16 feet. The belt is the same in which the Somerset wells are located.

### Hard Blow to 400 Farmers.

Wichita, Kan., June 10.—A correspondent who arrived here from the scene of devastation in Clay county, Oklahoma, says the storm of Friday night ruined the wheat crop of 400 farms west and northwest of Blackwell. These farms are all in one body of territory. The farmers who had purchased twine and harvest machinery are asking the local dealers to take them back and the dealers have referred the matter to the factories.

Great preparations have been made for their reception during the four days of the gathering. The principal events of the week will be a reception at the Kansas City club Monday night, two parades Tuesday, with a concert and drill in convention hall in the evening and an exhibition drill at exposition park Wednesday, followed by a ball Wednesday night in convention hall. Thursday a special entertainment will be provided. The chief business of the meeting will be the election of a chief potentate and the selection of the Mecca for the next annual session. Philip Shaffer of Philadelphia probably will be elected imperial potentate.

### Excitement Dying Out.

Manilla, June 10.—A dispatch received here from the States saying the Philippine tariff stands until the new tariff which is being framed in Washington is put in force, dissipated the excitement occasioned by Colonel Edwards' Washington dispatch indicating the abolition of the Philippine tariff. Collector Smith's annual report will show that the amount of gold of duties collected is as follows: Imports for the 32 months of the American occupation \$14,315,000, exports \$1,698,250. The total values of the imports and exports and the totals of the duties and tonnage are all more than doubled, as compared with the average of any decade during the Spanish regime.

### International Machinists' Defl.

Toronto, Ont., June 10.—The International Machinists association adopted a resolution to the effect that "after due consideration we accept the challenge of the National Metal Trades association and in accepting this declaration of war we cheerfully pick up the gauntlet and hurl back defiance. We never will accept any modification of our demands or resume labor until the cause for which we struggle is triumphant and a shorter workday is an accomplished fact." President O'Connell claims that the International association did all it could to get a satisfactory adjustment by pacific means.

### Recess Appointments.

Washington, June 10.—Representative Merrier of Nebraska called at the White House to ascertain the policy of the president in the matter of reappointment of federal officers whose terms expire during the recess of congress. He learned that generally speaking where it was the intention of the president to reappoint the present incumbents the appointments would be held over until after congress convened. In this way the necessity of filing two bonds will be avoided. In the case of officers having fixed tenures, it may be necessary to make the appointments during the recess.

### Major Tesson.

Vancouver, B. C., June 10.—Major Lewis S. Tesson, medical director of the department of Columbia and post surgeon at Vancouver barracks, is dead from apoplexy. He had been sick about one month. The remains probably will be taken to St. Louis, his former home, for burial. Deceased was 59 years of age. He was born in Missouri and joined the medical department of the United States army 26 years ago at St. Louis. He had posts in the United States.

Paris, June 10.—The police of this city have arrested an American woman named May Churchill who had maintained intimate relations with "Tom" Edwards, one of the burglars who robbed the Paris offices of the American Express company in April, the authorities having decided to charge her with complicity in the robbery. ## AN OCCASIONAL FIGHT.

Several Engagements With the Filipinos in Southern Luzon.

### CAILLES HAS NOT SURRENDERED.

Philippine Commission Postponed Its Northern Tour—Provincial Government Elected—Talks to the Natives About Taxes.

Manilla, June 10.—The Philippine commission has returned to Manilla from the province of Nueva Ecija, Luzon, having organized provincial government at San Isidro, capital of the province, with Captain Jacob F. Kreps of the Twenty-second infantry as governor, Lieutenant Richard C. Day of the Thirty-fourth volunteer infantry as treasurer and Lieutenant DeWitt C. Lyles of the same regiment as supervisor.

Judge Taft told the people that, if no power were given to levy customs, the expenses of the central government would be provided by additional internal taxes. He pointed out also that, if the decision of the authorities at Washington should result in free trade with the United States, opening up such a great market, the increase in land values would enable the people to respond to the increased internal taxes. The northern tour has been postponed.

The American astronomical commission has returned from Sumatra and will sail for home shortly.

Lieutenant Wray's command has had six engagements with the Filipinos in the province of Sorogon, Luzon, killing six; 23 Filipinos were captured at and near Atimonan, province of Tabayas, and several minor captures are reported from other parts of southern Luzon, where the natives are still active.

The report circulated in the United States that General Cailles has surrendered is unfounded.

### Editors at the Pan.

Buffalo, June 10.—On account of the large number of visiting newspaper men and women expected at the Pan-American exposition this week, June 12 is announced by Director General Buchanan as editors' and publishers' day. The meeting of the National Editorial association and several state associations will bring to the exposition this week the largest number of editors ever gathered together in one place at the same time. It is expected that a total of not less than 1,500 will be here. They will hold their meetings at the temple of music at the exposition and will be entertained by Sousa's band, which has arrived at the exposition for a month's stay, the Mexican artillery band sent by President Diaz of Mexico as a compliment to the American people, and other bands and musicians.

### Whitney's Horse Simply Leased.

London, June 10.—The papers have printed New York dispatches saying that Mr. Whitney would take Volodyovski to America, but he cannot do that. He has simply leased the horse for £5,000 cash and half of what the horse might win at three and four years of age, after which he is to be returned. Had Lady Meux cared to sell the colt outright on an offer that was made, he would now stand at £25,000, the offer being £15,000 down and £10,000 more if he won the derby.

### Jumped From Windows.

Chicago, June 10.—Seven persons were hurt escaping from fire in the Golden West hotel on West Madison street. The fire started on the second floor and though it did little property damage, the frightened guests jumped from windows of the second and third floor. Injured: Nicholas Gozden, proprietor of the hotel; Jacob Wilth, Rose McKenna, John McKenna, Albert Weston, hurt internally; Mrs. Albert Weston, William McBurn, Oak Glen, Ills. All will recover.

Salina, Kan., June 10.—Practically all of the students of the Wesleyan university here have threatened to quit that institution forthwith if the board of trustees insist upon removing F. D. Tubbs, professor of natural science, whose name was dropped from the faculty list on Thursday owing to his ideas on evolution. The feeling among the students is very bitter and it is stated they will take decisive action if the board continues to maintain its position.

### JUSTICE HARLAN'S STRONG WORDS.

When a Democratic editor or speaker criticizes the recent decisions of the Supreme Court in the insular cases and denounces the imperialism of the Hanna-McKinley administration, he is immediately subjected to ridicule or denunciation by Republicans. Well, these Republicans, some of them at least, will probably give a more respectful hearing to Justice Harlan, of the Supreme Court. Justice Harlan is a Republican, a Kentucky one. Rendering his views on this question of ruling distant territory, Justice Harlan uses this language which should be deeply considered by every citizen, who loves not only the freedom of others, but values his own liberty and rights for the future:

"I take leave to say that if the principles now announced should receive the sanction of a majority of this court the result will be a radical and mischievous change in our system of government. We will, in that event, pass from the era of constitutional liberty, guarded and protected by a written Constitution, into an era of legislative absolutism, in respect of many rights that are dear to all people who love freedom.

"In my opinion Congress has no existence, and can exercise no authority outside of the Constitution. Still less is it true that Congress can deal with new territories just as other nations have done or may do with their new territories. This Nation is under the control of a written Constitution which is the supreme law of the land and the only source of the powers which our government, or any branch or office of it, may exercise at any time or any place.

"Monarchical or despotic governments, unrestrained in their powers by written constitutions, may do with their newly acquired territories what this government may not do consistently with our fundamental laws. The idea that this country may acquire territories anywhere upon the earth by conquest or treaty and hold them as mere colonies or provinces is wholly inconsistent with the spirit and genius as well as with the words of the Constitution.

"The glory of our American system of government is that it was created by a written Constitution which protects the people against the exercise of arbitrary, unlimited power, and the limits which may not be passed by the government it created, or by any branch of it, or even by the people who ordained it, except by amendment.

"It will be an evil day for American liberty if the theory of government outside of the supreme law of the land finds lodgment in our constitutional jurisprudence."

### MAJOR GEORGE E. PICKETT.

Brilliant Exploit of a Washington City Cavalryman, Who Has Many Relatives in Mason County.

[Washington Evening Times.]

The Manila Freedom of April, published at Manila, a copy of which has just been received here, gives an interesting account of the Corkscrew Hill fight, in which Major George E. Pickett, a well-known Washington boy, acquitted himself with honors. The story in Freedom is as follows:

"The full particulars have at last been received of the fight of the command under Major George E. Pickett. This command consisted of a detachment of only ten mounted men of the Sixteenth Infantry, together with two civilians, business men of Manila, who were with the party.

"To-day a Freedom representative interviewed S. M. Berger, one civilian who accompanied the expedition, and from what he says, Major Pickett acquitted himself with the same dash and daring which made his father famous during the war of the rebellion.

"Mr. Berger said: 'In proceeding from Bagabag to Gordon on March 9, I accompanied a detachment of ten mounted men of the Sixteenth Infantry which guarded the funds of Major Pickett, amounting to something like \$75,000. About half way between the two posts, a short distance from Barrio Diadi, we were attacked by three companies of insurgents, in full uniform and well armed. Just as we arrived near the foot of Corkscrew Hill, where the trail winds around the outer edge of the hills and crosses a small stream at the foot and passes in front of and around the side of a range of hills on the opposite side from Corkscrew Hill, we saw the entire rebel force. They were so close that we could readily recognize one member of the force as wearing an American uniform. The rebels deployed, one company going up one side of the hill and one going up the other side of the same hill, one company coming over the hill from the rear, all just opposite us. The first two companies were mounted, while the latter was unmounted. They fired on us while in a hollow where the trail crosses the stream, about forty to fifty yards distant. All of our pack animals were stampeded at the first volley, and crossed over to the foot of the hill occupied by the rebels. After fighting them some fifteen or twenty minutes from the brush and tall grass along the stream, they got our range and poured in a deadly hail all about us.

"At this juncture one man was sent back to Bagabag and Solano on a swift horse for reinforcements. Major Pickett then ordered the force to take up a position on a low hill back of us, and some 150 to 200 yards in front of the enemy's position. In doing so we had to pass under a terrific cross fire. While climbing this hill the bullets plowed up dust all around and over us, and every moment I expected the next would be my last.

"This position was held for half an hour when we observed a detachment leave the enemy's position, with the evident purpose of flanking us. They were also making desperate attempts to lead off our pack train which had halted at the foot of the hill which they commanded, but each attempt resulted in the wounding or death of those who made the attempt. Major Pickett called for two volunteers who were willing to risk their lives to save the train. William Cox, Private Myron Cody and myself volunteered to make the attempt to get the train back, as they were not so well equipped to make a standing fight. We rolled down the hill into the brush and grass bordering the stream, and if the situation had been less serious it would have convulsed the on-lookers.

"We gathered in some of the horses, and Private Cody and Mr. Cox made a dash for the pack train under a fearful fire, and succeeded in getting them across the river to our side. At this stage of the fight, Major Pickett ordered five men to hold the hill which we were then occupying, while he proceeded with Dr. Warwick and the rest of the men of the command to occupy a range of taller hills in the rear which commanded the enemy's positions, a point also deemed impossible to flank without great loss to themselves.

"The insurgents could not get the range on this new position, which resulted in their demoralization when they saw the execution of our troops were doing them. They could not stand our fire any longer, and stampeded in great disorder, proceeding down the valley in the direction of Barrio Diadi, disappearing in the brush 500 to 1,000 yards away along the contour of the little stream."

### CAPITAL ONE BILLION.

Pierpont Morgan to Establish a Great Anglo-American Bank.

London, June 10.—It is currently reported here that J. Pierpont Morgan is arranging for the establishment of a great Anglo-American bank with a capital of one billion dollars. It is said that it is proposed to abolish all of the principal financial agencies and banks already engaged in Anglo-American business. The proposed institution, it is said, is intended to be the principal agency for the already vast and rapidly growing banking transactions between Europe and America. Mr. Morgan is understood to have associated with him in the stupendous undertaking not only the principal capitalists who aided in the organization of the United States Steel corporation, but also the Rothschilds.

St. Patrick's Church was crowded Sunday morning at the 8 o'clock mass, as a class of about forty boys and girls were to receive, for the first time, holy communion. The sermon by the pastor, Rev. ### Sara's Joke.

London, June 10.—Mme. Sara Bernhardt states that there is still some doubt as to whether she will play Romeo to Maud Adams' Juliet. Her acceptance of the offer was made jokingly, but was taken seriously. Mme. Bernhardt adds: "I would love to play Romeo in English, but I scarcely think I could ever sufficiently master English to do so."

## TIME

And we're ready. Fact is we've been waiting for Phoebus to begin his summer work. 'Twould have been absurd to talk parasols with the sky in frowns. Now it smiles. So may you. Such parasols! Beautiful yet inexpensive. Notice, we don't say cheap—the word grates in association with such quality. But prices are low. For pretty silk conceits in white or colors, strong frames, stylish handles, \$1.25 you say? Not a bit of it—only \$1. And others at \$1.50, \$2, \$2.50, \$3. In fact nearly every kind of a parasol that has beauty to commend it is here.

### PIANO RECITAL.

Pupils of Miss Lida Berry Gave a Very Enjoyable Musical at Her Home Saturday Evening.

The home of Miss Lida Berry on West Second street was the scene of a very enjoyable musical Saturday, the occasion being the closing piano recital by her pupils for the school year. Miss Berry is one of the most faithful and most successful instructors on the piano in the city, a fact attested by the steadily increasing list of her pupils. Some of those who took part in the recital Saturday evening have been receiving instruction for only a few months, but they played with remarkable ease and proficiency, considering the comparatively brief instruction they have had. The older pupils rendered their selections with an ease and grace that showed the careful training of the experienced teacher. Miss Berry is certainly to be congratulated on the splendid showing made by her pupils. The parlors were crowded with relatives and friends.

Miss Elizabeth Hall recited very charmingly "Naughty Nell" and Prof. Bullette rendered a violin solo, these two numbers giving variety to the program and adding to the enjoyment of the evening.

The following was the program:

They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility; but, "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from headache, backache, nervousness, sleeplessness, melancholy, fainting and dizzy spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c. at J. Jas. Wood & Son's drugstore.

### DRAWING AND MODELING.

Work of the Pupils of Maysville's Public Schools Shows Most Gratifying Progress the Past Year.

The school children of the present day are very fortunate individuals, and they would appreciate that fact if they could visit a school of twenty years ago. The educational methods have undergone great changes in that time. This is especially true of the instruction in drawing, modeling &c. How many can remember when it was somewhat of a crime to draw pictures in school? The youngster who desired to express himself by this means must do so stealthily, and woe betide him if the teacher discovered his work, especially if the teacher himself had been the model. The young artist either received a "wallopin" or was made to play easel for weary minutes and hold his work up to the gaze of the school which shared not his talent. The child of twenty years ago was not furnished with clay with which to model, but its only experience in this line was making mud pies and cakes and marbles (never heard of spheres) and when found so engaged, the fond mother had a feeling in her heart that she had neglected her duty, if she failed to punish the young culprit. Who can tell how many young artists and sculptors were thus nipped in the bud? Now all this is happily changed. The children of our public schools are given instruction in drawing, clay modeling and painting, and everything is being done to develop the mind and train hand and eye in matters artistic.

An exhibition of the work of all the schools of the city was given at the High School building a few days ago.

The work displayed was so arranged as to show the improvement made from the primary grade to the High School and the progress was very marked and most gratifying. Indeed in most instances, the progress has been remarkable. If all the patrons of the school had seen this display it would not be necessary to say anything of the teacher of this department, (the accomplished Miss Julia M. Stone), for her work would have praised her sufficiently. Miss Stone has had charge of this work for several years and the Maysville people should count themselves fortunate in that they have so efficient and accomplished a lady to instruct the little ones in these branches.

Miss Ella Wallace of the Fifth ward school, (District No. 3), gave an exhibition of the work done by the children of her room on Friday afternoon. The work shown was the drawings, paintings, clay modelings and paper cutting done by her pupils the past session. In addition, the putty and papier mache relief map work was exhibited. These were made by children of eight and nine, and evinced great skill for such little folks. Neat little cards had been sent out by the pupils inviting their parents and friends to see their work, and quite a number responded. Miss Wallace is thoroughly in love with her work and possesses the happy faculty of enlisting her pupils' most enthusiastic support in all she undertakes. So each little man and woman vied with "Miss Ella" in making every visitor welcome, and all went away with words of praise for this teacher and her pupils.

### CHILDREN'S DAY

Fittingly Observed at the Christian and First Presbyterian Churches Sunday—Delightful Services.

The Children's Day exercises at the First Presbyterian Church took place before a full house Sunday morning, and a goodly sum was realized for Sunday school missions. "Faith, Hope, Love," was the title of the service, embracing songs and recitations. The fund raised by this denomination on Children's Day is expected to reach \$75,000 this year.

The Children's Day service at the Christian Church last evening attracted an audience that taxed the seating capacity of the church. The auditorium was packed, the gallery was crowded, then chairs were placed in the aisles and in all the available space, and when these were filled the standing room at the doors and in the pastor's study was taken, and many were afterwards turned away.

The decorations were beautiful. A large arch covered with evergreens and flowers spanned the pulpit platform, with festoonings extending to each side wall. From the center of this arch arose a cross in green, with a large bunch of pink roses occupying its center. Another moveable cross on the platform was in white and green. In addition to this there was a profusion of roses, peonies, daisies and vines, beautifully arranged with a few potted plants and vases of cut flowers, the whole presenting an inspiring scene, especially after the children of the Bible school had marched in and taken seats on the platform.

"The Better Day" was the title of the service, embracing a number of songs,

interspersed with recitations and exercises, all bringing out the central idea of the day—missions. The pupils of the school were assisted by members of the choir and by Miss Berry, organist, Prof. Bullette, violinist, and Dr. P. G. Smoot, who very kindly tendered their services. The exercise throughout was most inspiring, entertaining and instructive.

At the regular session of the school Sunday morning the offering for foreign missions reached about \$70, and this was supplemented by the collection at night, the total offering amounting to about \$84. Last year the total offering was \$75.

## FRANK OWENS HARDWARE COMPANY

Congressman Kehoe,  
[Cynthiana Democrat.]

When in Maysville with the Elks Wednesday evening we dined with Congressman J. N. Kehoe. He has a beautiful home in west Maysville, a large, old-fashioned mansion set far back on a hillside lawn overlooking the river. It is an ideal place, almost too good to exchange even temporarily for a seat in Congress. "I spent thirty days in Washington last winter," said Mr. Kehoe, "and I made up my mind then that my family should live with me there or I would not go to Congress." His wife is a charming young woman and he has four interesting children, the youngest a bright-eyed girl a

year old. Mr. Kehoe is justly proud of the political race he made and the victory he won, and especially proud of the splendid way in which his home county stood up to him.

### CINCINNATI TOBACCO MARKET.

Not Much Change Last Week From the Previous Week—Some Increase in the Offerings, but They Are of Poor Quality.

|                       |       |       |
|-----------------------|-------|-------|
| Offerings of old..... | 1901. | 1902. |

| Total rejections..... | 163   | 206   |

Actual sales..... 782 841

Receipts..... 1,248 858

The seven hds. old offered averaged \$5.07 per 100 pounds, as against \$7.28 for the twelve hds. for the previous week, and \$9.31 for the 370 hds. for the corresponding week of last year.

The 888 hds. new offered averaged \$6.41 per 100 pounds, as against \$7.69 for the 580 hds. for the previous week, and \$8.03 for the 677 hds. for the corresponding week of last year.

The weekly circular of the warehouse interests says in part:

"The character of the market for the week was not much varied from that of the one previous, only in so far as the amount of the tobacco offered and the grades that were sold. There was an increase in the offerings, as was expected, but the class of tobacco was common throughout. There was little or no real good tobacco offered, and no fancy sales can be reported from any of the houses. The greatest percentage of the offerings sold under \$10. But, taking into consideration the quality, the prices realized were very good, and the market was strong on what tobacco there was.

"There was, perhaps, a slight falling off in the uniformity of the market, compared with last week, but the activity was fully equal, and compared with the prices of similar tobacco offered last week the prices this week were fully as high."

"Rough common to medium red fillers were strong, and full prices were paid for them. Trashes and lugs were about the same as last week, while cotory goods were in steady demand. Anything that was not in good order was frowned upon by the buyers and left severely alone. The result was that this class of tobacco did not sell well.

"The receipts are growing, but the rainy weather is holding back shippers from taking their tobacco down for fear of its condition not being assured. Just as soon as the weather becomes hot and dry, so that the tobacco can go through a thorough sweat, the shipments to the markets, particularly of good tobaccos, will grow."

### NEIGHBORHOOD NEWS.

Items of Interest Contributed by Our Country Correspondents.

CONCORD, LEWIS COUNTY, June 7th.—The heaviest rain known in years fell in this vicinity Wednesday evening, doing great damage to the crops and devastating the gardens. There were nine washouts on the C. and O. between this place and Vanceburg and all the section crews from Greenup to Concord were called out.

Very little tobacco has been planted, owing to the cool weather.

A man giving his name as Housemann, in attempting to get on a train while it was in motion at Garrison, was badly injured and was brought to Concord to the company's surgeons Dr. Grimes, who dressed his wounds and sent him to the hospital at Covington.

Sycamore creek was raging Wednesday evening and a good many logs and railroad ties were carried away.

It is probable that the Democrats of "Old Lewis" will have a ticket in the field at the November election, notwithstanding the assertion of the Republicans to the contrary.
